

## Equipment Hire Terms and Conditions

Studio 62 reserves the right to hire its equipment to those who it deems suitable, and if you are unknown to us we will ask for references and / or a bond. If you have not used a particular piece of equipment before, we are happy to organise a familiarization with the equipment and/or a trained assistant.

### Loss / Damage

If the equipment is lost or damaged, the customer will pay to the company Studio 62 the full current replacement price or value of the repair, whichever is most suitable to Studio 62. The company Studio 62 is not obliged to inform the customer of any particular liability until such time as the equipment has been fully checked by the company.

### Person Responsible

It is important that the person responsible for hiring the equipment maintains direct care of the goods, as they will be liable if something goes wrong.

### Failure

Please ring us immediately if the equipment fails and we will organise to have it fixed or replaced ASAP. In event of delays to a shoot we will credit the hirer with additional time or equipment use, but will not be held responsible for any other costs.

### Returns

If, for whatever reason, the equipment is returned later than the agreed time, then the customer will be charged at double rate for the extra hire period.

### Hire Rates

All hire rates are listed on the website and are for a period of one day and exclude 15% GST. Half days will be charged at 60% of day rate plus insurance plus GST. Hire for a period of seven days will be charged for five, and for longer periods or where travel is concerned please contact us for a quote.

---

I have hired the following equipment and agree to the above terms and conditions of hire:
